Compliance:	EN1789 & EN1865

The Ferno F2 Monobloc provides a safe, ergonomic, and reliable patient handling solution. Made of lightweight, durable aluminum, the F2 Monobloc features an independent leg design that supports the patient during loading and unloading, reducing strain on medics. Automatic locking front and rear legs automatically unfold. The color-coded left- and right-hand control levers are user-friendly. Four three-position, telescoping handles provide ergonomic carrying and lifting options for medics. Adjustable six-position backrest provides support for patient comfort, and optional swing-down side rails provide patients a feeling of security.

Option: Ferno F2 Fastener 10G - F600150003
